

Certificate of Completion

Logical Framework Approach and Results-Based Planning and Management.

This record of completion is granted to

Davie Nyamatchelenga

Successfully completed comprehensive training in the **Logical Framework Approach and Results-Based Planning and Management**. Developed understanding of the LogFrame's core architecture & proficiency in designing indicators, means of verification, assumptions, and risk factors. Demonstrated the ability to construct and interpret vertical logic, and to apply the LogFrame as a practical tool for planning, monitoring, and evaluating results-driven interventions.
